CONFIDENTIAL

ADDENDUM TO 11 MARCH MINUTES OF  
FINE ARTS COMMISSION

25X1

25X1  
25X1  
25X1

[redacted] reported that the dish antenna must be a 10 meter dish rather than the 7-meter dish that the FAC originally gave their consent for. [redacted] from HOME and [redacted] from FBIS were present to explain the need and to answer any questions.

25X1

[redacted] showed a drawing indicating the difference between 21' diameter and 30' diameter for 10 meter dish. Technical aspects of 7 meter dish are not adequate to do what is needed. There is pressure to get this dish in operation right away.

25X1

25X1

[redacted] showed an aerial view of the compound, and explained how the location was arrived at. [redacted] said they are hoping to put tall evergreen trees to hide the dish as much as possible. After all possibilities were considered it was determined that the only place the dish could be located is on the north side of the north parking lot as the parking lots will provide the low space needed for viewing and the dish needs to tie into the DI TV coming into the building on the northeast corner of the building. There will be no overhead wires in the system.

25X1

25X1

After hearing all the considerations that [redacted] report covered, there really does not seem to be an alternative. [redacted] said that the FAC will go along with HOME's recommendation with the provision that HOME will present the landscaping plan to our Commission prior to going ahead with the landscaping.
